Some of the regular trainings available from ESD 105:

- Effective Schools
- Grief/Loss/Separation
- Parent Community Education around Safety & Security Programs
- Safe Schools: Violence Prevention & Personal Safety
- Drug Recognition

**Serving.
Delivering.
Inspiring.**

The ESD 105 Learning Support Department provides basic training for school administrators and school security officers to help schools establish a safe, disciplined, and drug-free environment. We also offer programs to enhance the ability of school staff members and students to appropriately respond to crises. These services are available to all school districts in the ESD 105 region.

Our goals are to:

- Help school districts build capacity to develop and fully implement school security programs
- Involve community partners to help build capacity for schools to adequately respond to crises
- Provide improved responsive services to schools
- Help schools stay in compliance with federal and state mandates for safety and security

School Safety and Security

The ESD 105 Learning Support Department offers the following assistance for helping ensure safety and security at our region's schools:

- Training, planning, and implementation for school security programs and officers
- Technical assistance for policy development for school security programs and officers, including job descriptions.
- Assessments to determine further training needs for school safety and security programs
- Technical assistance for establishing threat and vulnerability assessments
- Facilitating relationships for schools with area law enforcement, fire, and emergency management to develop policies and procedures for school safety

Emergency Response Crisis Management

We also offer the following services to help our schools improve and strengthen their comprehensive safe schools plans, incorporating prevention/mitigation, intervention, all-hazards crisis response, and recovery:

- Threat assessments
- Site, safety, and security assessments
- Prevention and intervention assessment services
- Crisis management and response team training.
- Crisis training for teachers and counselors
- Crisis counseling and trauma debriefing services
- Policy and procedure compliance reviews
- Technical assistance for the Rapid Responder School Mapping System
- Consultation and technical assistance for the latest legislation on school safety
